

Construction Update

July 24, 2024

Stage I Area Update:

The contractor recently completed valve vault bolt replacements at various locations throughout the Stage I area and will install a new water valve and vault on Stonegate Road this week. The water valve manages the flow of water through the water distribution system (water main pipes) for fluid isolation to perform maintenance, repair, or replacement of the water system.

Stage II Area Update:

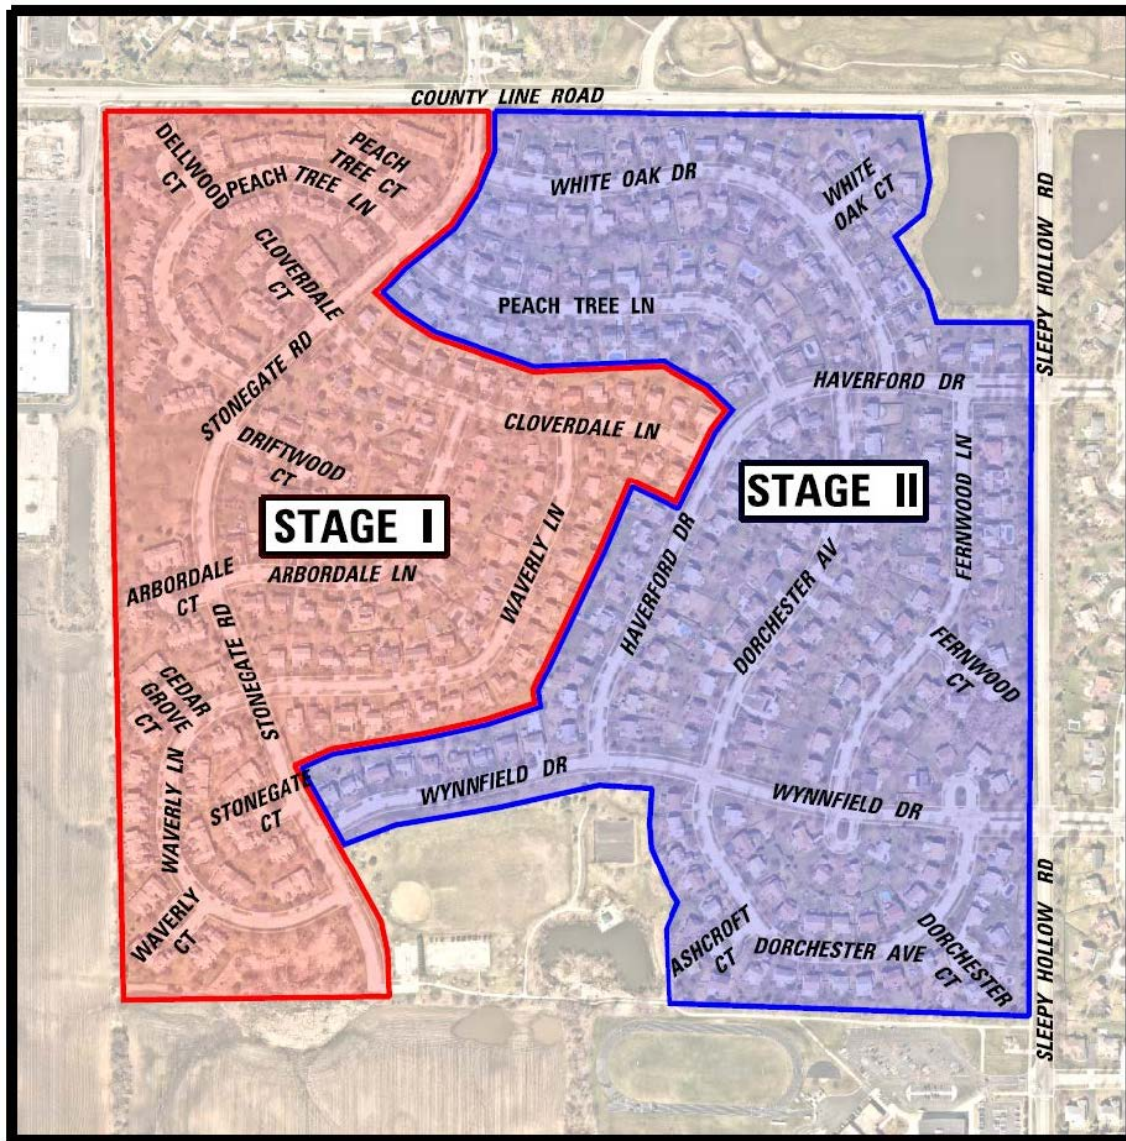

Last week, the contractor completed valve vault bolt replacements and completed storm sewer replacement and installations at the following locations:

- The intersection of Haverford and White Oak drives
- The intersection of Haverford Drive and Fernwood Lane
- Along Fernwood Court

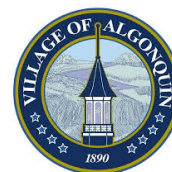

This week the contractor will continue valve vault bolt replacement and storm sewer removal and replacement throughout the Stage II area.

Installing Storm Sewer Improvements in Stage II
