

# Construction Update September 18, 2024

We are in the final stretch of construction! We are so excited to deliver these improvements to the community!

Over the last week and a half, the contractor applied the **final** asphalt surface mix throughout the entire project area! All paving is now complete in the subdivision.

Over the next two weeks, the remaining work includes installation of inlaid pavement markings, roadway signage, and landscape restoration. Once all contract and punch list work is to the satisfaction of the Village, the project will be complete!

*Paving the hot-mix asphalt surface course*

**This will be the final email update, thank you for your patience as we wrap up construction!**
